Forsys Metals Corp.

Notes to Interim Consolidated Financial Statements

July 31, 2007

(unaudited)

1. Nature of operations

Forsys Metals Corp. (the "Company") is in the exploration stage, as such, the continued operations of the Company and the recoverability of amounts shown as mineral properties is dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain financing to complete the development of its properties and upon future profitable production, or alternatively, upon the Company's ability to recover its costs through a disposition of its interests. The amount shown for mineral properties represent costs to date, less amounts written off, and do not necessarily represent present or future value. Changes in future conditions could require a material change in the amount recorded for mineral properties.

These unaudited interim consolidated financial statements have been prepared on a going-concern basis, which assumes the continuity of operations and realization of assets and the settlement of liabilities in the normal course of business. If the going-concern assumption is not appropriate, then material adjustments may be necessary in the carrying amount and/or classifications of assets and liabilities in these unaudited interim consolidated financial statements.

2. Accounting presentation and disclosures

These interim consolidated financial statements of the Company have been prepared using accounting policies that are consistent with the policies used in preparing the Company's annual consolidated financial statements for the year ended January 31, 2007. Generally accepted accounting principles for interim financial statements do not conform in all respects to the disclosures required for annual financial statements, and accordingly, these interim consolidated financial statements should be read in conjunction with the annual consolidated financial statements.

Accounting changes

On January 1, 2007, the Company adopted the Canadian Institute of Chartered Accountants Handbook ("CICA Handbook") Section 1506, "Accounting Changes" which requires that voluntary changes in accounting policy be made only if the changes result in financial statements that provide more reliable and more relevant information. It also requires prior period errors to be corrected retrospectively. The adoption of the standard had no effect on the Company's consolidated financial statements.

Financial instruments

On January 1, 2007, the Company adopted CICA Handbook Section 3855, "Financial Instruments – Recognition and Measurement" which requires that financial instruments are classified as financial assets and financial liabilities held for trading, held-to-maturity investments, loans and receivables, available-for-sale financial assets or other financial liabilities.

Financial assets and liabilities held for trading

Financial assets and liabilities held for trading are accounted for at fair value with the change in fair value recognized in earnings.

Held-to-maturity investments

Held-to-maturity investments are recognized at fair value and subsequently measured at amortized cost using the effective interest rate method. These financial instruments are written down to fair value by a charge to earnings when impaired.

Loans and receivables

Loans and receivables are initially recognized at fair value with any premium or discount from face value being amortized to earnings using the effective interest rate method. These financial instruments are written down to fair value by a charge to earnings when impaired.

Available-for-sale financial assets

Available-for-sale financial assets are accounted for at fair value with the change in fair value recorded in other comprehensive earnings. These financial instruments are written down to fair value by a charge to earnings when impaired.

Other financial liabilities

Other financial liabilities are initially recognized at cost or amortized cost depending on the nature of the financial instrument with any premium or discount from face value being amortized to earnings using the effective interest method.

Transaction costs

Transaction costs incurred in connection with the issuance of financial liabilities are capitalized recorded as a deduction of the carrying value of the related financial liabilities and amortized using the effective interest method.

Effect of adoption

As a result of the adoption of the standards, the Company has classified its cash and cash equivalents as held for trading; foreign sales tax receivable as loans and receivables; and accounts payable and accrued liabilities as other financial liabilities. On February 1, 2007, cash and cash equivalents previously reported as \$11,892,604 was restated to \$11,930,262 to reflect the reclassification of interest receivable of \$37,658 as cash and cash equivalents.

Comprehensive income and equity

On January 1, 2007, the Company adopted CICA Handbook Section 1530, "Comprehensive Income" which requires disclosure of comprehensive income and CICA Handbook Section 3251, "Equity" which requires presentation of the components of equity, including retained earnings (deficit) accumulated other comprehensive income, contributed surplus, share capital and reserves and the changes therein. Comprehensive earnings is composed of the Company's net earnings and other comprehensive earnings, including unrealized gains and losses on available-for-sale securities, foreign currency translation gains and losses on the net investment in self-sustaining operations and changes in the fair market value of derivative instruments designated as cash flow hedges, all net of income taxes. The Company does not have any other comprehensive income and the adoption of the standard had no effect on the Company's consolidated financial statements.

Hedges

On January 1, 2007, the Company adopted CICA Handbook Section 1530, "Hedges" which allows optional treatment providing that hedges be designated as either fair value hedges, cash flow hedges or hedges of a self-sustaining foreign operation. The Company does not have hedging programs in place which qualify for hedge accounting and the adoption of the standard had no effect on the Company's consolidated financial statements.

3. Disposition of Namibian Westport Ltd.

On July 9, 2007, the Company entered into an agreement ("Agreement") to sell the issued and outstanding shares of Namibian Westport Ltd. (formerly Namibian Minerals Ltd.) ("Namibian") to Beta Minerals Inc. ("Beta"). Namibian, through its wholly owned subsidiary, Westport Resources Namibia (Pty.) Limited, owns a 100% interest in the Sperrgebiet Zinc Project, a 100% interest in the Omaruru Gold Project, an option to earn up to a 70% interest in the Elbe Zinc Project and a 32% interest in the Ondundu Gold Project, all of which are located in Namibia, Africa.

Pursuant to the terms of the Agreement, Beta will seek shareholder approval for the consolidation of its issued and outstanding common shares on the basis of 6.3 issued and outstanding common shares for 1 post-consolidation common share. The Company will sell all of the issued and outstanding securities of Namibian in consideration for 7,558,824 Beta post-consolidation common shares and 7,558,824 Beta common share purchase warrants, with each Beta common share purchase warrant entitling the holder to purchase one Beta post-consolidation common share at an exercise price of \$1.50 per share for 12 months from the date of issuance.

It is the Company's intention to distribute the Beta common shares and Beta common share purchase warrants to its shareholders. Under the proposed distribution, each shareholder of record of the Company as at August 27, 2007 (the "Distribution Record Date") will receive their respective pro-rata number of Beta common shares and Beta common share purchase warrants. Based on the fully diluted issued and outstanding Class A common shares of the Company on July 26, 2007, each of the Company's shareholders would be entitled to 1 Beta post-consolidation common share and 1 Beta common share purchase warrant for each 11.61 Class A common shares of the Company held. The pro rata distribution amount will be subject to final adjustment on the Distribution Record Date.

Namibian entered into a letter of intent dated June 25, 2007 with a broker who has agreed to act as agent, on a best efforts basis, for a private placement of up to 20,000,000 common shares of Namibian ("Namibian Shares") at a price of \$0.75 per Namibian Share for aggregate proceeds of up to \$15,000,000, which will close concurrently with the closing of the Agreement. Namibian has agreed to pay a commission equal to 6% of the amount raised pursuant to the private placement and issue the number of broker warrants equal to 6% of the Namibian Shares issued pursuant to the private placement, with each warrant entitling the holder to purchase one Namibian Share at a price of \$0.95 per Namibian Share during the first 12 months from the date of issuance and at a price of \$1.50 per Namibian Share for the subsequent 12 months. The Namibian Shares issued pursuant to the private placement will be exchanged for Beta post-consolidation

common shares concurrently with the closing of the Agreement on the basis of one Beta post-consolidation common share for each Namibian Share.

Subject to regulatory approval, a finder's fee of 335,000 Beta post-consolidation common shares will be paid to arm's length parties upon closing the Agreement.

The closing of the Agreement is subject to Beta receiving shareholder approval of the consolidation of its issued and outstanding common shares, Namibian completing its private placement, the receipt or regulatory approval for the listing of the Beta post-consolidation common shares on the TSX Venture Exchange, and the receipt of all required regulatory approvals.

The Agreement may be terminated if the closing has not occurred by September 30, 2007 or such later date agreed to by the Company, Namibian and Beta. In that event, there will be no obligations on the part of any parties under the Agreement.

4. Acquisition of Mega Diamond Development Ltd.

On March 13, 2007, the Company acquired all of the issued and outstanding common shares of Mega Diamond Development Ltd. ("Mega"), a private company incorporated in the British Virgin Islands. Mega owns 70% of the issued and outstanding common shares of Ancash Investments (PTY) Ltd. ("Ancash"), a company incorporated in Namibia that is the 100% registered holder of the interests in Exclusive Prospecting Licences 3632, 3635, 3636, and 3637 and has a 30% interest in Exclusive Prospecting Licence 3638, all uranium projects. As at January 31, 2007, cash of \$300,000 had been paid as a good faith payment prior to the completion of the acquisition.

Purchase price	\$
Cash	997,150
4,750,000 Class A common shares	7,932,500
4,000,000 Class A common share purchase warrants entitling the holder to acquire one Class A common share at a price of \$6.66 per Class A common share until March 13, 2010	3,624,667
Finders fee of 300,000 Class A common shares	501,000
Acquisition costs	135,427
	<hr/> 13,190,744
Net assets acquired	\$
Mineral properties	13,190,744

The fair value of the warrants of \$3,624,667 was determined using the Black-Scholes valuation model with the following assumptions:

Expected life of warrants	3 years
Risk-free interest rate	4.11%
Volatility	128%
Dividend yield	0%

The Company has an option to acquire an additional 20% of the issued and outstanding common shares of Ancash until March 14, 2010 at a price to be determined on the date of exercise of the option based on the then current valuation of Ancash, provided that the consideration shall not be less than the amount paid for the initial acquisition of 70% of the issued and outstanding common shares of Ancash on a pro rata basis.

5. Acquisition of Tsumeb Exploration Company Limited

On December 9, 2005, the Company acquired all of the issued and outstanding shares of Namibian Metals Ltd. ("Namibian Metals"), a private company incorporated in the British Virgin Islands, the registered and beneficial holder of 90% of the issued and outstanding shares in Tsumeb Exploration Company Limited ("Tsumeb"), a private company incorporated in Namibia, whose primary asset is the Valencia Uranium Licence (EPL1496) in Namibia, Africa. On March 14, 2007, the Company acquired the remaining 10% of the common shares of Tsumeb.

Purchase price	\$

Accounts payable to Westport	(1,161,432)
Loan payable to the Company	(4,392,436)
	<hr/> 22,359,353 <hr/>

The fair value of the warrants of \$3,685,422 was determined using the Black-Scholes valuation model with the following assumptions:

Expected life of warrants	1 year
Risk-free interest rate	4.09%
Volatility	87%
Dividend yield	0%

6. Mineral properties

As a result of the acquisition of remaining 10% of the common shares of Tsumeb, the Company holds a 100% interest in Exclusive Prospecting Licence 1496 for the Valencia uranium project, which is subject to renewal on February 19, 2009.

The Company has the option to earn a 60% interest in the Exclusive Prospecting Licence 3136 for the Elbe copper, gold, zinc and silver project, which expired on June 29, 2007 and the Company is awaiting approval of its renewal application. On March 13, 2007, the option was amended so that the Company has until March 12, 2010 to issue 300,000 Class A common shares and incur exploration and development expenditures of Namibian\$5,000,000.

The Company holds Exclusive Prospecting Licence 3166 for the Omaruru gold project, which expired on June 10, 2007 and the Company is awaiting approval of its renewal application.

The Company has a 32% interest in Exclusive Prospecting Licence 3195 for the Ondundu gold project, which expired on May 30, 2007 and the Company is awaiting approval of its renewal application.

The Company held Exclusive Reconnaissance Licence 95 for the Rundu diamond project, which expired on April 22, 2007 and was not renewed by the Company.

7. Share capital

Balance as at July 31, 2007	74,524,204	92,743,785

On February 27, 2007, the Company completed a private placement of 10,000,000 Class A common shares for gross cash proceeds of \$47,500,000. Agents were paid a cash commission of 4% of the gross proceeds of the private placement and certain out of pocket expenses totaling \$1,954,670. In addition, the Company issued 500,000 warrants, with each warrant entitling the holder to acquire a Class A common share at a price of \$4.75 until February 27, 2009. The fair value of the warrants of \$1,727,218 was determined using the Black-Scholes valuation model with the following assumptions:

Expected life of warrants	2 years
Risk-free interest rate	4.02%
Volatility	105%
Dividend yield	0%

Stock options

Due to the change in listing of the Company's Class A common shares from the TSX Venture Exchange to the Toronto Stock Exchange ("TSX"), the Company amended its stock option plan to comply with the rules of the TSX. Effective June 28, 2007, the Company's stock option plan was amended to permit stock options to have a maximum term of 10 years and to permit the Board of Directors to determine the vesting provisions of stock options granted. Previously granted stock options vest in six equal instalments over 18 months, with the first instalment vesting immediately, and the remaining options vesting upon 6 months, 9 months, 12 months 15 months and 18 months after the date of grant.

	Number of options	Weighted average exercise price \$
Outstanding as at January 31, 2006	2,285,500	0.46
Granted	2,425,000	2.06
Exercised	(870,333)	0.66
Cancelled	(16,667)	0.55
Outstanding as at January 31, 2007	3,283,500	1.43
Granted	1,010,000	7.51
Exercised	(832,500)	0.68
Outstanding as at July 31, 2007	4,001,000	3.12
Exercisable as at July 31, 2007	2,361,834	1.79

On February 21, 2007, the Company granted 910,000 options to acquire Class A common shares at a price of \$7.74 per share until February 21, 2012. The fair value of the options of \$5,236,845 was determined using the Black-Scholes valuation model with the following assumptions:

Expected life of options	3 years
Risk-free interest rate	4.03%
Volatility	128%
Dividend yield	0%

On July 31, 2007, the Company granted 100,000 options to acquire Class A common shares at a price of \$5.40 per share until July 31, 2012, which vested on the date of grant. The fair value of the options of \$361,350 was determined using the Black-Scholes valuation model with the following assumptions:

Expected life of options	3 years
Risk-free interest rate	4.59
Volatility	105%
Dividend yield	0%

A summary of the Company's options outstanding and exercisable at July 31 2007 is presented below:
